**PLEASE SEE THE ATTACHED PAGES SHOWING THE AMENDMENTS IN FULL.**

1. (Twice Amended) A [top box for a] gaming machine having a top box, the gaming machine comprising:

a main gaming machine section; and

a [substantially non-rectangular gaming machine] top box [housing] having a substantially hollow interior; wherein the top box includes a housing and a substantially non-rectangular [a] door having a display panel; and wherein a hinge operatively [attaching] attaches the door to the housing.

2. (Twice Amended) A [top box for a] gaming machine having a top box, the gaming machine comprising:

a main gaming machine section;

a [substantially non-rectangular gaming machine] top box [housing] having a substantially hollow interior; wherein the top box includes a housing and a substantially non-rectangular [a] door having a display panel; and

means for operably attaching the door to the housing so that the door may be opened and closed.

3. (Twice Amended) A [top box for a] gaming machine having a top box, the gaming machine comprising:

a main gaming machine section;

a [substantially non-rectangular gaming machine] top box [housing] having a substantially hollow interior; wherein the top box includes a housing and a substantially non-rectangular [a] door having a display panel; and

means for rotably attaching the door to the housing.

9. (Twice Amended) [A top box for an] An upright gaming machine having a top box, the gaming machine comprising:

a main gaming machine section; and

a [substantially non-rectangular gaming machine] top box [housing] having a substantially hollow interior; wherein the top box includes a housing and a substantially non-rectangular [a] door having a display panel; and wherein a hinge operatively [attaching] attaches the door to the housing.

10. (Twice Amended) [A top box for an] An upright gaming machine having a top box, the gaming machine comprising:

a main gaming machine section; and

a [substantially non-rectangular gaming machine] top box [housing] having a substantially hollow interior; wherein the top box includes a housing and a substantially non-rectangular [a] door having a display panel; and

means for operably attaching the door to the housing so that the door may be opened and closed.

11. (Twice Amended) [A top box for an] An upright gaming machine having a top box, the gaming machine comprising:

a main gaming machine section; and

a [substantially non-rectangular gaming machine] top box [housing] having a substantially hollow interior; wherein the top box includes a housing and a substantially non-rectangular [a] door having a display panel; and

means for rotably attaching the door to the housing.

17. (Twice Amended) A [top box for a] gaming machine having a top box, the gaming machine comprising:

a main gaming machine section; and

a [gaming machine] top box [housing] having a substantially hollow interior; wherein the top box includes a housing having [and] a side portion[;] and a substantially non-rectangular

door having a display panel; and wherein a hinge operatively [attaching] attaches the door to the side portion of the housing.

18. (Twice Amended) A [top box for a] gaming machine having a top box, the gaming machine comprising:

a main gaming machine section;

a [gaming machine] top box [housing] having a substantially hollow interior; wherein the top box includes a housing having [and] a side portion[;] and a substantially non-rectangular door having a display panel; and

means for operably attaching the door to the side portion of the housing so that the door may be opened and closed.

19. (Twice Amended) A [top box for a] gaming machine having a top box, the gaming machine comprising:

a main gaming machine section;

a [gaming machine] top box [housing] having a substantially hollow interior; wherein the top box includes a housing having [and] a side portion[;] and a substantially non-rectangular door having a display panel; and

means for rotably attaching the door to the side portion of the housing.

27. (Twice Amended) [A top box for a] An upright gaming machine having a top box, the gaming machine comprising:

a main gaming machine section;

a [substantially non-rectangular gaming machine] top box [housing] having a substantially hollow interior; wherein the top box includes a housing having a side portion, and a substantially non-rectangular door having a display panel; and

means for rotably attaching the door to the side portion of the housing.

33. (Twice Amended) [A top box for an] An upright gaming machine having a top box, the gaming machine comprising:

a main gaming machine section;

a [substantially non-rectangular gaming machine] top box [housing] having a substantially hollow interior; wherein the top box includes a housing having a side portion, and a substantially non-rectangular door having a display panel; and wherein a hinge operatively [attaching] attaches the door to the side portion of the housing.

34. (Twice Amended) [A top box for an] An upright gaming machine having a top box, the gaming machine comprising:

Atty Docket No.: 10407/518  
Serial No. 09/966,776

a main gaming machine section; and

a [gaming machine] top box [housing] having a substantially hollow interior; wherein the top box includes a housing having [and] a side portion,[:] and a substantially non-rectangular door having a display panel; and wherein a hinge operatively [attaching] attaches the door to the side portion of the housing.
